

We're Almost There!

The NMLTA is very happy to announce that SB 12, adopting the Revised Uniform Law on Notarial Acts, was passed by the House last evening. The bill will now go to the Governor and we expect that the Governor will sign the bill. If enacted, the new bill will go into effect January 1, 2022, to give the Secretary of State sufficient time to develop and implement new notarial regulations.

A big thanks to all of our members who contacted their legislators to express their support for this very important bill to our industry.
